## **Our School Values**

**to have academic confidence**

**to make safe and sensible choices**

### **Ethos**

Our school ethos is our shared vision and common sense of purpose. As an Infant School we recognise that it is a privilege to work with children at the start of their school career and as infant practitioners we have a strong understanding of the need to balance social and emotional maturity with academic ambition and plan learning that supports development of both. This ethos aims to guide the day to day life and development of the school and strongly influence the 'feel' of the school.

### **Equal Opportunities**

At Motcombe we believe that all children, regardless of first language, disability, race, gender, cultural or socio-economic background, should receive equal access to the full school curriculum.

### **Disability Statement**

Motcombe is proud to be an inclusive school. We are able to offer access to the full curriculum for children who have a physical disability.

We have easy access into the main part of both buildings and have accessible toilet facilities.

As with any additional needs the school works closely with parents and appropriate outside agencies.

## 1. Policy Aims

- This online safety policy has been adapted by **Motcombe School** involving staff, learners and parents/carers, building on the East Sussex County Council/The Education People online safety policy template, with specialist advice and input as required.
- It takes account of the DfE statutory guidance Keeping Children Safe in Education 2021, Early Years and Foundation Stage and the East Sussex Safeguarding Children Partnership procedures.
- The purpose of **Motcombe School** online safety policy is to:
  - Safeguard and protect all members of **Motcombe School** community online.
  - Identify approaches to educate and raise awareness of online safety throughout the community.
  - Enable all staff to work safely and responsibly, to role model positive behaviour online and to manage professional standards and practice when using technology.
  - Identify clear procedures to use when responding to online safety concerns.
- **Motcombe School** identifies that the issues classified within online safety are considerable, but can be broadly categorised into four areas of risk:
  - **Content:** being exposed to illegal, inappropriate or harmful material
  - **Contact:** being subjected to harmful online interaction with other users
  - **Conduct:** personal online behaviour that increases the likelihood of, or causes, harm.

## 1. Policy Scope

- **Motcombe School** believes that online safety is an essential part of safeguarding and acknowledges its duty to ensure that all learners and staff are protected from potential harm online.
- **Motcombe School** identifies that the internet and associated devices, such as computers, tablets, mobile phones and games consoles, are an important part of everyday life.
- **Motcombe School** believes that learners should be empowered to build resilience and to develop strategies to manage and respond to risk online.
- This policy applies to all staff including the governing body, teachers, support staff, external contractors, visitors, volunteers and other individuals who work for, or provide services on behalf of the setting (collectively referred to as "staff" in this policy) as well as learners, parents and carers.
- This policy applies to all access to the internet and use of technology, including personal devices, or where learners, staff or other individuals have been provided with setting issued devices for use off-site, such as a work laptops, tablets or mobile phones.

### 2.1 Links with other policies and practices

- This policy links with several other policies, practices and action plans including:
  - Anti-bullying policy
  - Behaviour policy
  - Child protection policy
  - Curriculum policies: Computing, Personal Social and Health Education (PSHE), Relationships and Health Education (RHE)
  - Image use statement

## 2. Monitoring and Review

- Technology in this area evolves and changes rapidly; **Motcombe School** will review this policy at least annually
  - The policy will also be revised following any national or local policy requirements, any child protection concerns or any changes to the technical infrastructure

- We will regularly monitor internet use and evaluate online safety mechanisms to ensure that this policy is consistently applied.
- To ensure they have oversight of online safety, the **headteacher** will be informed of online safety concerns, as appropriate.
- The named governor for safeguarding, **Liz Barker**, will report on a regular basis to the governing body on online safety practice and incidents, including outcomes.
- Any issues identified via monitoring will be incorporated into our action planning.

### 3. Roles and Responsibilities

- The Designated Safeguarding Lead (DSL) (**Tracy Robinson, Headteacher**) has lead responsibility for online safety.
  - Whilst activities of the designated safeguarding lead may be delegated to appropriately trained deputies, the ultimate lead responsibility for safeguarding and child protection remains with the DSL.
- **Motcombe School** recognises that all members of the community have important roles and responsibilities to play with regards to online safety.

#### 4.1 The leadership and management team will:

- Ensure there are appropriate and up-to-date policies regarding online safety; including a staff conduct policy, which covers acceptable use of technology.
- Ensure that suitable and appropriate filtering and monitoring systems are in place and work with technical staff to monitor the safety and security of our systems and networks; as schools increasingly work online, it is essential that children are safeguarded from potentially harmful and inappropriate online material (including when they are online at home).
- Ensure that online safety is embedded within a progressive preventative curriculum, which enables all learners to develop an age-appropriate understanding of online safety.
- Recognise that a one size fits all approach may not be appropriate for all children and a more personalised or contextualised approach to online safety is used for more vulnerable children and children with SEND
- Ensure that ALL members of staff receive regular, updated, and appropriate online safety training which is integrated, aligned and considered as part of the whole school or college safeguarding approach.
- Support the DSL and any deputies by ensuring they have appropriate time and resources to fulfil their online safety responsibilities.
- Ensure there are robust reporting channels for the community to access regarding online safety concerns, including internal, local and national support.
- Audit and evaluate online safety practice, ideally annually, to identify strengths and areas for improvement.

- Ensure all members of staff are aware of the procedures to follow regarding online safety concerns affecting learners, colleagues or other members of the community.

## 5.4 Awareness and engagement with parents and carers

- **Motcombe School** recognises that parents and carers have an essential role to play in enabling children and young people to become safe and responsible users of the internet and associated technologies.
- We will build a partnership approach to online safety with parents and carers by:
  - Providing information and guidance on online safety in a variety of formats.
    - ~ This will include offering specific online safety awareness training and highlighting online safety at other events such as parent evenings, transition events, fetes and sports days.

<https://www.saferinternet.org.uk/advice-centre/teachers-and-school-staff/appropriate-filtering-and-monitoring>

#### 7.3.1 Decision Making

- **Motcombe School** governors and leaders have ensured that our setting has age and ability appropriate filtering and monitoring in place, to limit learner's exposure to online risks.
- The governors and leaders are aware of the need to prevent "over blocking", as that may unreasonably restrict what can be taught, with regards to online activities and safeguarding.
- Our decision regarding filtering and monitoring has been informed by a risk assessment, considering our specific needs and circumstances.
- Changes to the filtering and monitoring approach will be risk assessed by staff with educational and technical experience and, where appropriate, with consent from the leadership team; all changes to the filtering policy are logged and recorded.
- The leadership team will ensure that regular checks are made to ensure that the filtering and monitoring methods are effective and appropriate.

- All members of staff are aware that they cannot rely on filtering and monitoring alone to safeguard learners; effective classroom management and regular education about safe and responsible use is essential.

#### **7.3.4 Monitoring**

- We will appropriately monitor internet use on all setting owned or provided internet enabled devices. This is achieved by:

## 7.9 Live Stream Lessons for Remote Learning

- Live stream is a somewhat broad term and, in some cases, can refer to a platform where the teacher and the children are all linked into a video call/conference and see one another. In other cases, it may refer to a live broadcast, where only the teacher, or whoever is providing the content, is visible and the children are viewing the content, without being seen themselves. In the latter example, although not linked into the broadcast with their images, the children may be able to interact through a live chat function.
- When planning the use of live stream platforms within remote learning our school will:
  - Consider whether the technology is available to children/families and make alternative arrangements for provision where necessary.
  - Ensure that staff are trained to use the technology.
  - Ensure that children's behaviour/interactions are managed in line with the expectations of the school behaviour policy.
  - Risk assess the platform being used and consider whether there are functions, such as live chat, pupil's use of video camera, or the recording of the session, which need to be disabled or which require further measures to support their appropriate use.

The above points are relevant to live stream in its broadest sense. What follows next is more relevant, but not exclusively, to the use of platforms allowing two-way video interaction between all users.

- Two members of staff will be 'within the room' when conducting a live stream session with pupils. If the session is being run from school and both adults are there, then they can be physically within the same room. If one or both adults are working remotely then this means that two adults will need to be present within the video call, and they should both be there before the pupils dial in.
- The second member of staff is there to provide a safeguard for both the pupils and the teacher, so does not need to be a curriculum specialist.
- The second member of staff could act additionally as technical/behaviour support, in terms of monitoring pupils' interactions and ensuring they are not using chat or recording features if these cannot be disabled.
- Sessions will be planned and scheduled for during school hours.

- Parents will be contacted to advise that the session is taking place and they and the child should consent to abide to an acceptable use agreement covering issues such as not recording the session, not using the live chat feature, being appropriately dressed etc.
- Staff will use school devices and school contact numbers/emails for communications and running the session.
- Only live streaming platforms approved by SLT will be used.
- Staff will dress professionally and choose a neutral background for their video stream.
- Pupils should be dressed appropriately e.g. clothes they might wear for a non-uniform day, not pyjamas.
- Pupils should live stream from a suitable location within their household, not bedrooms.
- Staff behaviour and language will be entirely in line with the staff code of conduct.
- All other school policies/practices should be followed, notably the safeguarding and child protection policy so should there be any welfare concerns about the child these should be brought to the attention of the DSL without delay.
  - The user will need to discuss the issues with a member of leadership before reinstatement.
  - A learner's parents/carers may be informed.
  - If the content is illegal, we will respond in line with existing child protection procedures.
- Learners may require editorial approval from a member of staff. This may be given to the learner to fulfil a specific aim and may have a limited time frame.
- A visitor may be invited onto the LP by a member of the leadership; in this instance, there may be an agreed focus or a limited time slot.

- Members of staff will notify the Leadership Team immediately if they consider that any content shared on social media sites conflicts with their role.

#### *Communicating with learners and parents and carers*

- All members of staff are advised not to communicate with or add as 'friends' any current or past learners or their family members via any personal social media sites, applications or profiles.
  - Any pre-existing relationships or exceptions that may compromise this, will be discussed with DSL (or deputies) and/or the headteacher
- Staff will not use personal social media accounts to contact learners or parents, nor should any contact be accepted, except in circumstance whereby prior approval has been given by the headteacher.
- Any communication from learners and parents received on personal social media accounts will be reported to the DSL (or deputies).

### **8.3 Learners' Personal Use of Social Media**

- Safe and appropriate use of social media will be taught to learners as part of an embedded and progressive education approach, via age appropriate sites and resources.
- We are aware that many popular social media sites state that they are not for children under the age of 13, therefore we will not create accounts specifically for learners under this age.
- Any concerns regarding learners use of social media will be dealt with in accordance with existing policies, including anti-bullying, behaviour and Acceptable Use Policies.
  - Concerns will be shared with parents/carers as appropriate, particularly when concerning underage use of social media sites, games or tools and the sharing of inappropriate images or messages that may be considered threatening, hurtful or defamatory to others.
- Learners will be advised:
  - To consider the benefits and risks of sharing personal details on social media sites which could identify them and/or their location.
