**Geography Progression Map** 

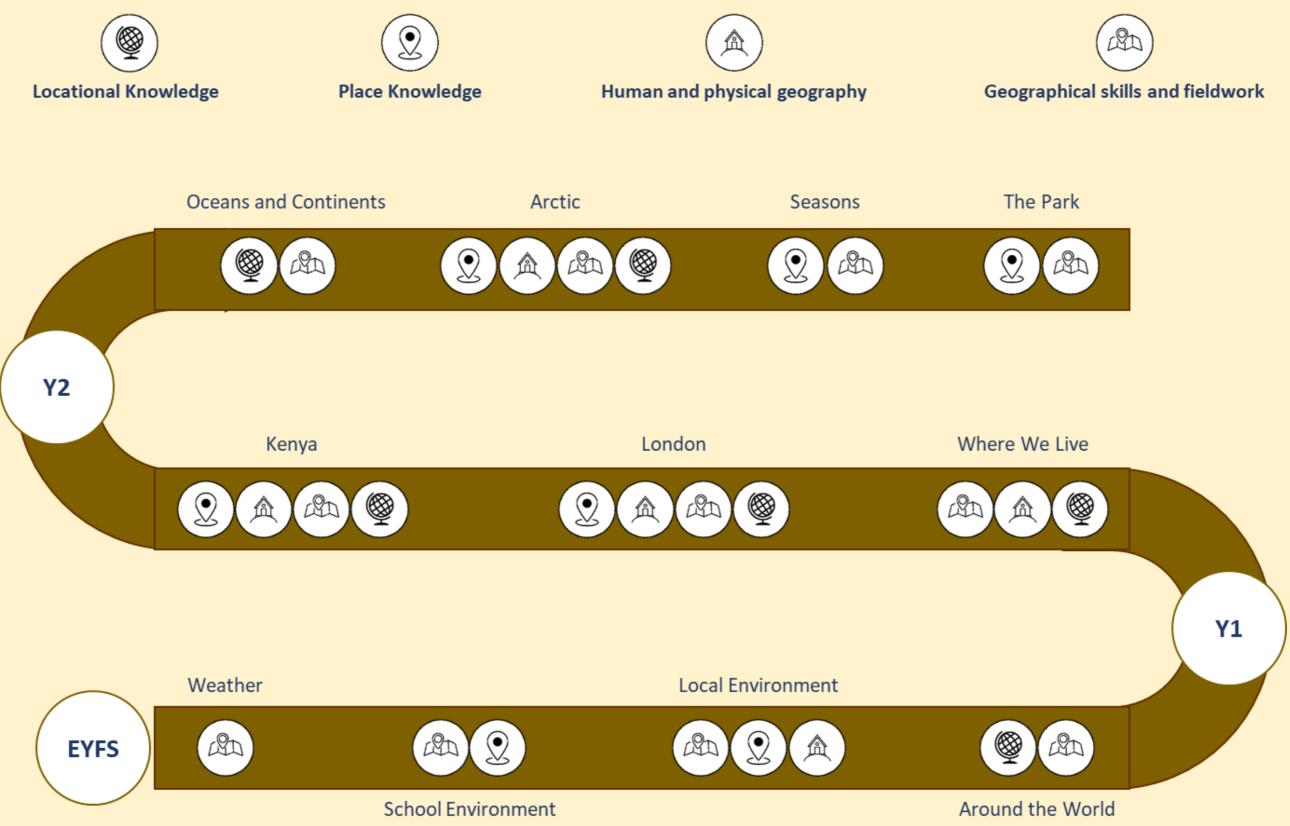

# "Geography is the tapestry that weaves the world together"

Motcombe School

Flying high together

# **Gil Grosvenor**

# **Geography Curriculum Map**

To compare different weathers and seasons.

# Enquiry

What is the weather?

## Substantive Knowledge (Content)

- To know that there are different kinds of weather
- To know that weather changes across the year •
- To know that the weather has an impact on the things we do •
- To know that weather has an impact on the world around them
- To know that there are different types of cloud
- To know that rain comes from water droplets in clouds
- To know that rain is important for living things •
- To know that there are four seasons: autumn, winter, spring, summer
- To know that summer is when it is most warm and winter is when it is • most cold
- To know that sunshine brings warmth
- To know that when it is very cold, water can freeze and become ice, frost, hail and snow
- To know that wind is caused by air around them moving

## **Prior Learning**

## EYFS

This is an ongoing unit, moving through the different weathers with the seasons. We will explore rain and wind in terms 1-3, frost, ice and snow in terms 2 and 3 and clouds and sunshine in term 6.

## **Future Learning**

# EYFS

In the Term 5 unit 'Places Around the World' children will learn about weather in different countries.

**Y1** 

Children will look the climate in different countries.

# Y2

Children will learn about how the weather can change depending on seasons.

| Recognise   | Name and point out who or what something is  |
|---|--|
| Identify  | Distinguish something or someone from others that may be similar   |
| Describe  | 'Say what you see'. Give an account in words of something or someone   |
| Observe   | Identify and distinguish with a degree of analysis some<br>things that may potentially be more noteworthy or<br>important than others  |
| Compare and contrast  | Find similarities and differences  |
| Recall  | Remember and recount something learned   |
| Concepts  |  |
| Environment   | The surroundings of a place in which a person, animal or plant lives and interacts.  |
| Process   | The natural or human events and actions occurring in a place that maintain equilibrium or cause change.  |
| Change  | The alteration or modification of places over time as a result of natural and/or human processes.  |
| Similarity and difference   | The ways in which two things are almost the same and not the same.   |
| Weather   | The conditions in the air above the earth.   |
| Interaction   | How the physical and human elements of a place affect or impact each other and other places.   |
| Air   | -  |
|   | The mixture of gasses that surrounds the earth and that we breathe   |
| calm / still  | breathe<br>Absence of wind   |

# Assessment points

- Identify seasons
- we do
- **Observe** and record the weather **Observe** seasonal changes in their immediate environment **Compare and contrast** the weather at different times of the year **Recall** the names of the four seasons

# EYFS coverage

- Explore the natural world around them, making observations and drawing pictures. The Natural World ELG
- Know some similarities and differences between the natural world around them and contrasting environments, drawing on their experiences and what has been read in class The Natural World ELG Understand some important processes and changes in the natural world around them, including the seasons and changing states of
- matter. The Natural World ELG

# SEN/D minimum expectations

- we do

# environment.

- Recognise features of different kinds of weather **Identify** different kinds of weather

  - **Describe** the effect of weather on the environment and on the things

- Recognise features of different kinds of weather
- Identify different kinds of weather
  - **Describe** the effect of weather on the environment and on the things
- High prior attainment and extension opportunities
- Look at examples of extreme weather and how it can damage the

#### Geography – EYFS – Unit: Our school

### Objective

To describe their school environment

#### Enquiry

Why is Motcombe special?

#### Substantive Knowledge (Content)

- To know that environments are made up of different features. •
- To know that we can use maps to represent places (the school environment).
- To know that places can change over time.

## **Prior Learning**

## EYFS

Children will know the name of some features of the school such as the classroom, hall, patio, field, etc.

## **Future Learning**

# Y1

Children will look at where Motcombe School is on a map.

# Y2

Children will learn about where the polar regions and the equator are and how they differ.

- Assessment points • **Recognise** features in our school environment **Describe** our school environment • Select features to include in maps, drawings, other representations of our school environment • **Categorise** features by their respective environments **Sequence** features from journeys **Compare and contrast** the school environment now and in the past **EYFS** coverage Describe their immediate environment using knowledge from • observation, discussion, stories, non-fiction texts and maps People, Culture and Communities ELG SEN/D minimum expectations Recognise features in our school environment **Describe** our school environment, with support Select features to include in maps, drawings, other representations of • our school and local environment, with support High prior attainment and extension opportunities Independent map making opportunities e.g. of classroom or patio area

## **Geography – EYFS – Unit: Our Town**

To describe their local environment

#### Enquiry

What is Eastbourne like?

#### Substantive Knowledge (Content)

- To know that environments are made up of different features.
- To know that we can use maps to represent places (the local environment).
- To know that places can change over time.

## **Prior Learning**

## EYFS

Children have identified features in the school environment and positioned features on a basic map of the school. They have identified locations in the local environment on an aerial map of the school.

## **Future Learning**

# **Y1**

Children will look at London as a city and compare it with other places.

# Y2

Children will enhance their knowledge and understanding of map work by learning about the different continents and oceans.

| Skills                  |   |

# identified on those maps.

- **Recognise** features in our local environment
- **Categorise** features by their respective environments
  - **Sequence** features from journeys
  - **Compare and contrast** the local environment now and in the past

• Describe their immediate environment using knowledge from observation, discussion, stories, non-fiction texts and maps People,

- **Recognise** features in our local environment
- **Describe** our local environment

High prior attainment and extension opportunities Look at a range of maps of Eastbourne and find places we have already

To compare places around the world

## Enquiry

What would it be like to live in a different country?

# Substantive Knowledge (Content)

- To know that different places have different geographical features. •
- To know that there are different countries in the world.
- To know that there are places in the world that are much colder and hotter than where we live.
- To know that we can use maps and globes to represent the world.

# **Prior Learning**

# EYFS

Children have identified features in the school environment and positioned features on a basic map of the school. They have identified locations in the local environment on an aerial map of the school.

# **Future Learning**

# Y1

Children will look at where the school is in the context of the whole world including the continent and country it can be found in.

# Y2

Children will enhance their knowledge and understanding of physical and human geographical features.

- and its grounds
- Use simple maps of the local area e.g. large scale, pictorial etc. • Make simple maps and plans e.g. pictorial place in a story Link their homes with other places in their local community

SEN/D minimum expectations

# specific location of a place.

- **Recognise** where their school is on a map.

  - **Observe** the main points of reference.
- **Select** geographical features surrounding the school.
  - Categorise photos of the school and surrounding area.
- Sequence the order of size from planet to school.
  - **Compare and Contrast** the surrounding of their home and school.
  - **Recall** the capital city of the country they live in.
  - **Reason** why aerial photos make good maps.
  - Summarise where is the school.
  - Name, locate and identify characteristics of the UK
  - Use basic geographical vocabulary to refer to physical and human

Use aerial photographs and plan perspectives to recognise landmarks Use simple fieldwork and observational skills to study the geography of

• Use simple observational skills to study the geography of the school

Children to know that they live in England and their school is in Eastbourne. With support, children can identify where their school is on a map.

# High prior attainment and extension opportunities

Children to think about why aerial photos are useful for describing the

To know about place knowledge within a city, including London, and its features.

# Enquiry

Why do so many people live in London?

## Substantive Knowledge (Content)

- Where London is
- What makes a city •
- How cities are different from towns •
- What physical features are in London
- What human features are in London
- How London compares to other cities
- What symbols are on maps
- Why symbols are used on maps

# **Prior Learning**

# EYFS

The children have found out about what Eastbourne is like by looking at its features.

# **Y1**

They have learnt significant that events have happened in the past (Battle of Hastings). They have begun to recall some of the main events. The children have also spent time looking at monarchs.

## **Future Learning**

# **Y1**

Children will develop their comparing and contrasting skills when looking at life in Kenya.

# Y2

Children will enhance their understanding of human and physical geographical features when looking at life in Quito.

# ley vocabu

| London            | A city in England                                 |
|-------------------|---|
| city              | A major place in a country                        |
| aerial map        | A map of an area from up high                     |
| human features    | Geographical things made by people or machines    |
| physical features | Geographical things made naturally                |
| artefacts         | Historical objects                                |
| landmark          | A place that can be recognised                    |
| symbol            | A picture used on a map to represent something    |
| town              | An area with houses and shops but not as big as a |
|                   | city  |
| Vancouver         | A city in Canada                                  |
|                   |   |

# Assessment points

- **Recognise** where London is **Identify** some of the landmarks in London • **Describe** what makes London a city **Observe** what symbols are used on an aerial map of London • • Select some of the main landmarks on a map **Categorise** the human and physical features in London Compare and Contrast London and Vancouver. • **Recall** some of the features on a map

- •
- •
- Summarise why so many people live in London

# National Curriculum Coverage

- Name, locate and identify characteristics of the UK
- Use world maps, atlases and globes to identify •
- Understand geographical similarities and differences through studying the human and physical geography of a small area of the United Kingdom, and of a small area in a contrasting non-European country
- features

# **Target Tracker statements**

- place?
- Use locational and directional language (e.g. near and far; left and right) to describe the location of features and routes

# SEN/D minimum expectations

can compare London to other cities.

# London.

Reason why Eastbourne is not a city

Use basic geographical vocabulary to refer to physical and human

Use aerial photographs and plan perspectives to recognise landmarks

- Ask simple geographical questions e.g. What is it like to live in this
- Use simple maps of the local area e.g. large scale, pictorial etc.
  - Make simple maps and plans e.g. pictorial place in a story
- Name, describe and compare familiar places
- Children know where London is and that it is a city. With support, children
- High prior attainment and extension opportunities
- Children to think about, discuss and reason if they would like to live in

To identify the geographical similarities and differences between to different places.

#### Enquiry

Why do lions live in Kenya?

## Substantive Knowledge (Content)

- Which continent Kenya is in
- Where Africa and Kenya is on a map •
- What compass directions are and how to use them
- What the climate is like in Kenya
- Why Kenya is a good place for lions to live •
- How Kenya and the UK are similar and different •
- What endangered means •
- What other animals live in Kenya
- Where do people live in Kenya •

## **Prior Learning**

# EYFS

They will know the names of some wild animals.

# **Y1**

Children know that there are similarities and differences between places.

## **Future Learning**

# Y2

Children develop their knowledge of animals that live in different parts of the world.

# KS2

Children will enhance their locational knowledge by learning about grid references

|-----------------|---|
| Environment     | The surroundings of a place in which a person,          |
|                 | animal or plant lives and interacts.                    |
| Location        | The precise site, position, or situation of a place.    |
| Scale           | The size or extent of the area of the place e.g. local, |
|                 | regional, national, international, or global.           |
| Distribution    | The pattern or arrangement of the physical and          |
|                 | human features of a place across its surface.           |
| Processes       | The natural or human events occurring in a place        |
|                 | that maintain equilibrium or cause change.              |
| Change          | The alteration or modification of places over time as   |
|                 | a result of natural and/or human processes.             |
| Interaction     | How the physical and human elements of a place          |
|                 | affect each other and other places.                     |
| Interdependence | The degree to which what happens in one place           |
|                 | impacts on what happens in another.                     |
| Sustainability  | The extent to which a place can balance meeting         |
|                 | the needs of its people                                 |
| Diversity       | The variety of the physical and cultural composition    |
|                 | of the society of a place.                              |
|                 |   |

# **Key vocabulary**

| ocean             | A large area of water                       |
|-------------------|---|
| continent         | A massive area of land made up of countries |
| South America     | A continent                                 |
| Europe            | A continent                                 |
| compass           | A tool used for identifying direction       |
| Ecuador           | A country in South America                  |
| human features    | Geographical things made by people or       |
|                   | machines                                    |
| London            | The capital city of England                 |
| map               | A recording of where things are             |
| physical features | Geographical things made naturally          |
| Quito             | The capital city in Ecuador                 |
| UK                | An area in Europe                           |
|                   |   |

# Assessment points

- **Identify** the names of different continents and oceans.
  - **Describe** the climate in Ecuador
  - •

  - •

# National Curriculum Coverage

- Name and locate the world's seven continents and five oceans
- Use world maps, atlases and globes to identify
- Use simple compass directions and locational and directional language •

# **Target Tracker statements**

- Use world maps, atlases and globes to identify the United Kingdom and its countries, as well as the countries, continents and oceans

•

# SEN/D minimum expectations children to locate the different continents.

# High prior attainment and extension opportunities Children to research other capital cities and compare them to Quito.

- **Recognise** where some continents are
  - **Observe** the differences between London and Quito
  - **Categorise** human and physical features
  - Compare and Contrast life in Ecuador and the UK
  - **Recall** the names of many geographical features
  - **Reason** why Quito may or may not be a good place to live
  - **Summarise** the similarities/differences between Ecuador and the UK

- Use simple compass directions (North, South, East and West) and locational and directional language
- Name and locate the world's seven continents and five oceans • Identify seasonal and daily weather patterns in the United Kingdom
  - and the location of hot and cold areas of the world in relation to the Equator and the North and South Poles
- Use basic geographical vocabulary to refer to key physical features • Use basic geographical vocabulary to refer to key human features
  - Understand geographical similarities and differences through studying
  - the human and physical geography of a small area of the United
  - Kingdom, and of a small area in a contrasting non-European country
- Children to remember the names of the 7 continents. With support,

To explore the physical features and climate of the polar regions

#### Enquiry

What is it like to live in the Arctic?

# Substantive Knowledge (Content)

- Where the polar regions are
- What the weather/temperature is like
- What some of the physical features in the Arctic are •
- What some of the human features in the Arctic are
- Which animals live in the Arctic
- What the similarities/differences between the Arctic and the UK are

## **Prior Learning**

# EYFS

The children have looked at what it would be like to live in a different country.

# **Y1**

The children looked at where they live in the UK including some of the local features.

# **Future Learning**

# Y2

Children will develop their understanding of weather including the use of geographical vocabulary.

# KS2

Children will begin to recognise how people's lives can differ depending on location.

| Skills   |   |
|--|---|
| Recognise  | Name and point out who or what something is   |
| Identify   | Distinguish something or someone from others that   |
|  | may be similar  |
| Describe   | 'Say what you see'. Give an account in words of   |
|  | something or someone  |
| Observe  | Identify and distinguish things that may potentially  |
|  | be more important than others   |
| Select   | Decide upon and choose that information   |
|  | considered most suitable or relevant  |
| Categorise/Classify  | Arrange information into particular groups  |
|  | according to shared qualities or characteristics  |
| Sequence   | Place a set of related events or things that follow   |
|  | each other into an order  |
| Compare and contrast   | Find similarities and differences   |
| Recall   | Remember and recount something learned  |
|  |   |
| En du anno ant   | The survey address of a place in which a payson   |
| Environment  | The surroundings of a place in which a person,  |
|  | animal or plant lives and interacts.  |
| Location   | animal or plant lives and interacts.<br>The precise site, position, or situation of a place.  |

the Arctic.

- **Recognise** where the polar regions are

  - **Observe** which animals live in the Arctic
- **Select** why there aren't many people that live in the Arctic
  - **Categorise** the human and physical features of the Arctic
- **Compare and Contrast** the UK and the Arctic
  - **Reason** why polar bears live in the Arctic
- Use basic geographical vocabulary to refer to physical and human

- Equator and the North and South Poles
- Name and locate the world's seven continents and five oceans
- Use world maps, atlases and globes to identify the United Kingdom and its countries, as well as the countries, continents and oceans studied at

Children to know where the polar regions are and what the temperature is like. With support, children can identify some animals that live in the

# High prior attainment and extension opportunities

Children to think about, discuss and reason whether they would like to visit

To know about the four seasons and how the world changes during these times

## Enquiry

When is a good time to go on holiday?

#### Substantive Knowledge (Content)

- What are the names of the four seasons
- What the order of seasons are
- Which months of the year are linked to each season •
- What is the weather like in each season
- How the seasons are different to each other •

# **Prior Learning**

## EYFS

The children have begun to look at types of weather.

# **Y1**

The children have begun to look at how things can change over time, observing the similarities and differences.

## **Future Learning**

## KS2

Children will explain about weather patterns in the UK and other parts of Europe.

# Key vocabulary

| season  | A period of time in the year               |
|---------|--|
| Spring  | A season                                   |
| Summer  | A season                                   |
| Autumn  | A season                                   |
| Winter  | A season                                   |
| months  | A period of time such as January or June   |
| weather | What is going on outside in the atmosphere |

# Assessment points

- **Recognise** the four seasons
- **Identify** the months linked to each season
  - **Describe** the weather in each season
  - Sequence the seasons in order •

  - •

# National Curriculum Coverage

- their school and its grounds
- Equator

# **Target Tracker statements**

- Use simple fieldwork and observational skills to study the geography of their school and its grounds and the key human and physical features of its surrounding environment
- Identify seasonal and daily weather patterns in the United Kingdom and the location of hot and cold areas of the world in relation to the Equator and the North and South Poles

# SEN/D minimum expectations

throughout the year.

- **Compare and contrast** the four seasons, including the weather
- **Recall** some of differences between each season
- **Reason** when is a good time to go on holiday
- **Summarise** how the world changes during the seasons

- Use simple fieldwork and observational skills to study the geography of
- Identify seasonal and daily weather patterns in the United Kingdom
  - and the location of hot and cold areas of the world in relation to the

Children to name the four seasons. With support, children can identify the four seasons and describe them in some detail.

## High prior attainment and extension opportunities

Children to think about, discuss and reason what clothes shops should sell
